

## CS 490/491L Progress Template.

Instructions: Each team member should enter their activities performed for the capstone project in the last two weeks, as well as their expected activities for the next two weeks, along with anything holding them up on completing their activities. These should be discussed by the team and their advisor(s) during the weekly/biweekly meetings, and the advisor(s) should sign and date the sheet indicating a correct assessment of the team's progress. Students need to upload a signed and scanned version to Canvas.. Progress reports uploaded to Canvas without a signature and score for progress will receive a 0 for progress.

**Team/Project Name:**     **Keyboard Buddies / Earworm**

-----  
**Team Member #1:**             **Alvaro Lopez-Romero**

**What I did since last progress report:**

Developed our chat feature component. The chat component utilizes the firebase authentication API to capture the user logged in and pop up the users chat window. Tested the chat feature to store chat messages in our firestore database.

**Anything holding me up on my last progress report's expected activities:**

Finals and final project. But, I still completed the chat feature component..

**What I plan to do before the next progress report:**

Polishing up finishing touches on the chat component and running a full end-to-end test of our application.

-----  
**Team Member #2:**             **Mitchell Mercer**

**What I did since last progress report:**

Finished spotify account retrieval with Natalie, wrote 3 features, one to get users top 20 songs, one to get users top 3 songs and play the previews on the users profile page, and one to get all genres of the users top 20 songs. Began testing some of the features already written.

**Anything holding me up on my last progress report's expected activities:**  
Finals prep.

**What I plan to do before the next progress report:**

Complete presentation slide deck, get users assigned a music taste.

---

**Team Member #3: Charles Quebral**

**What I did since last progress report:**

Implement filter of displaying users by distance using firestore database and npm's zipcode-city-distance package. Filter is currently hardcoded to within 100 miles.

**Anything holding me up on my last progress report's expected activities:**  
Finals of other classes

**What I plan to do before the next progress report:**

Finalize distance preference filter by making it customizable to the user.

---

**Team Member #4: Nathalie Claire Tivar**

**What I did since last progress report:**

Worked with Mitch on the spotify feature, had it display user's info in Spotify back to the website.

**Anything holding me up on my last progress report's expected activities:**  
Finals

**What I plan to do before the next progress report:**

Finish the project and the document.

-----

**Team Member #5:           Rodolfo Rivera**

**What I did since my last progress report:** Verify and store user data in firestore matching their account ids to their data. Display a popup when matched, removing previously matched users.

**Anything holding me up on my last progress report's expected activities:**

Finals

**What I plan to do before the next progress report:**

I plan on polishing the project, fixing bugs and getting it ready for presentation.

-----

Date: \_\_\_\_\_

Team Progress (0 -- 3): \_\_\_\_\_

0 -- no progress has been made by the team

1 -- insufficient progress has been made for the team to complete their capstone

2 -- sufficient progress has been made for the team to complete their capstone
