Item# [1]	Reviewer Name [2]	Code Module [3]	Line number [4]	Defect Description or Comment [5]	Major or Minor [6]	Disposition of Defect /Comment [7]	This column is used for identifying the person assigned to resolve the defect/comment. [8]	Notes [9]
1	Alvaro	User.java	70/72	"Objects cannot be resolved". On the int hashCode() method when it returns Objectc.hash().	Minor	Imported the java.util.Objects class to the User.java module to resolve the error.	Alvaro; Error swas resolved. Need to test on the next commit.	N/A.
2	Mitchell	HttpManager.java	null	null	null			
3	Charles	LoadDatabase.java	23, 33, 34, 35-45	Irrelevant variable names (i.e. "product_id, price, description")	Minor	Changed variables to be more relevant (user_id, bio, zipcode, etc.)	Charles: renamed variables where appropriate	N/A
4	Nathalie	GroupChat.java	N/A	Doesn't have any errors but the code is still a work in progress.	N/A	N/A	N/A	N/A
5	Rodolfo	GCloudConnecor.java	61	Code looks clean, is readable, secure, and has good architcture. Line 61,"jdbc:mysql:///%s" may only need two fowardslashes	Minor	Delete a foward slash to have the code working as intended	Rodolfo: Find out whether is should be removed or is fine as is and move foward accordingly.	N/A
6	Alvaro	User.java	11		Major	Imported the necessary classes. Implemented the "isEnabled()", isCredentialsNonExpired()","isAccountNonExpired()"," isAccountNonLocked()",and "getAuthorities()" methods in the User class. Created the necessary return variables for the above methods.	Alvaro; fixed all 5 errors the User class was throwing related to the UserDetails implementation.	N/A
7	Mitchell	Post.java	23, 31, 45, 53, 61,	setters do not fucntion	Major	change fucntion type to void, add input to fucntion call	Mitchell, made requisite modifications.	null
8	Nathalie	SpotifyHttpManager.java	N/A	no errors	N/A	N/A	N/A	N/A
9	Charles	index.html	37	Page refreshes on button click	Major	Added 'type = "button"' to tag	Charles	N/A
10	Charles	homepage.html	N/A	no errors	N/A	N/A	Charles	N/A
11	Nathalie	LoginController.js	37-39	switch page has no function	Major	Wrote a showDiv() function in App.js to link landing page and homepage. Added the function to the Login and Sign Up buttons.	Nathalie	N/A
12	Mitchell	LoginController.js	26-27	fucntion was skipping proper inputs	Minor//potentially major	refactored for verbose input	Mitchell	made requisite modifications.
13	Alvaro	Driver.java (demo-day branch)	18-239	Driver not processing dedicated CSV file to temp database correctly	Major	Revised User class, constructors, setter and getter methods to account for the correct data types in the CSV file for parsing. Additionally made revisions and fixes to the Driver class to parse and pass column attributes to the User class correctly for processing.	Alvaro; fixed all errors the User and Driver classes were thowring	N/A.
14	Rodolfo	GCloudConnecor.java	Entire class	Database instance is not connecting/allowing the app to start	Major	Began initial debugging and fixing errors, app still doesn't boot up using springboot.	Rodolfo	Need to continue debugging and finding the disconnect between springboot, gcloud connector, and user authentication to allow the app to start.
15	Nathalie	jsoncleaner.py	110-142	Has no errors but has alot of unnecessary codes.	Minor	Removed all unnecessary codes	Nathalie	N/A
16	Mitchell	App.js	65-78	All code appears correct but html appears as previous itteration instead of current	Minor	likely a conflict in file structure, N/A currenty	N/A	N/A
17	Mitchell	App.js	Class	Looks well done overall	N/A	N/A	N/A	N/A
18	Charles	spjsonpuller.py	N/A	No issues/errors found	N/A	N/A	N/A	N/A
19	Charles	kmeanscluster.py	N/A	No issues/errors found, currently only works for local csv's	N/A	N/A	N/A	N/A

[1] This is a sequential number that gives a reviewer's comments a unique ID for ease of referencing.

[2] Enter your name.

[3] For documents with multiple pages, enter the page number or numbers for the defect or comment. For example: ii, 12, 4-5

[4] Enter the identifying number or title for the Section, Paragraph, Figure, or Table for which you are entering a defect or comment.
For examples: 4.6.2, Stakeholder Plan.

[5] Enter a detailed description of the defect you are identifying or provide your detailed comment. Identify only one defect or comment per row.

[6] This column is automatically populated based on the entry chosen in the Defect/Comment Type column.

[7] This column is used to assign a disposition to the review comment.

[8] This column is used for identifying the person assigned to resolve the defect/comment.

[9] This column is used to record freeform notes about each defect and or its disposition.
